

# Computing

The ICT department really can't wait to meet you all. During your time at Hebburn Comprehensive School we will be looking at all the ways in which computers help us in our daily lives, from controlling robots to making games like Fortnite!

We want to see how good you are with your electronic devices. We call this being "Tech-Savvy"

Using any device or hardware you want. We want you to create a short video, song, webpage, poster or story. Tell us why you are excited to come to Hebburn and what you are looking forward to. Be as creative as possible and if you can't get to a device DON'T PANIC! You can create a drawing or written piece of work instead.

We would really like to see these so if you want you can bring these with you in September, or, you can send them to us by emailing them to; [office@hebburn.net](mailto:office@hebburn.net)

Remember to put "ICT Transition" in the subject line.

SEE YOU ALL SOON!

Mr Frame,

Miss Shield and Miss Miller

# Mission: Transition
