

Art and Design

Intent

HEBBURN
Comprehensive School

WORK HARD | BE KIND | ASPIRE

The intent of the Art and Design curriculum has been designed to enrich the quality of student experiences, providing rewarding activities that inspire, inform, stimulate and challenge. Our Art and Design curriculum is a broad and aspirational offer that not only covers but goes beyond the National Curriculum framework. This is balanced with an aim of developing skills when using a range of types of creative medium. Students develop their technical skills and understanding of the processes required to produce high quality artwork. Relevant artists linked to the themes of each project will be explored, allowing students to develop their analytical skills. The Art and Design curriculum ensures that all students: know and understand a range of artists and art forms; develop subject specific vocabulary; think creatively and develop resilience in taking creative risks; are able to work independently with confidence.
